Project Initialization and Planning Phase

The Customer Problem Statement template helps the team focus on the user's emotional and academic challenges to build an empathetic, educational solution.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A university student undergoing dense technical coursework (e.g., Computer Science)..	Maintain consistent study habits and prepare effectively for upcoming final exams	I struggle with complex concepts (like data structures or algorithms) and experience severe academic burnout.	I do not have immediate, personalized, or non-judgmental guidance available outside of regular classroom hours.	Overwhelmed, anxious, frustrated, and isolated in my academic journey.
