

Project Demo Planning

Date	15 July 2026
Team ID	XXXXXX
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning:

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and the problem being solved.	1	Nisanth Pakanati
2	Project Architecture	Explain the system architecture, workflow, and technologies used (BERT, BiLSTM, Gemini API, Streamlit).	2	Nishanth Pakanati
3	Live Application Demo	Demonstrate text input, emotion detection, confidence scores, and AI-generated learning guidance.	3	Kaviti Sri Anirudh
4	Analytics Dashboard	Showcase emotion analytics, confidence charts, prediction history, and stored records.	2	Abhishek Kojja
5	Technical Implementation	Explain the project structure, database (SQLite/CSV), model training, and API integration.	1	Kaviti Sri Anirudh
6	Conclusion & Future Scope	Summarize the project, discuss future enhancements, and answer questions.	1	Nishanth Pakanati

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why emotion-aware learning support is important and define the project objectives.
2	Solution Overview	Present the architecture, technologies used, and overall system workflow.
3	Live Feature Demonstration	Demonstrate emotion detection, AI-generated guidance, analytics dashboard, and stored history using the Streamlit application.

4	Q&A Session	Answer evaluator questions and discuss limitations, deployment, and future enhancements.
